

COMPANY OVERVIEW

Powering the Data Economy By Enabling Organizations to Instantly Connect People to What They Want

Boomi, a leading provider of cloud-based integration platform as a service (iPaaS), helps customers and partners quickly and easily accelerate business outcomes.

DELIVERING INTEGRATED EXPERIENCES

Integrated Experiences is the confluence of Data Readiness (information), Pervasive Connectivity (integration), and User Engagement (interaction) that transforms the way you engage with users (customers, partners, employees) to instantly connect them to what they want.

WHY BOOMI

Trusted by more than 17,000 customers globally for its speed, ease-of-use, and lower total cost of ownership, the Boomi AtomSphere Platform is cloud-native, unified, scalable, open, secure, and intelligent. As the pioneer of cloud-based iPaaS and in fueling the intelligent use of data, Boomi simplifies and streamlines our customers' ability to deliver Integrated Experiences that are underpinned by trusted data, and connect applications, processes, and devices for better human engagement and accelerated business outcomes.

FAST FACTS

THE PLATFORM FOR THE DIGITAL ERA

Connect everyone to everything with our cloud-native, unified, open, intelligent, and secure platform.

GLOBAL BUSINESS TRAVEL

CREATE a Connected Business

American Express GBT designed, built, tested, and deployed an entirely new, global IT infrastructure. With 120 different integrations and two employees, the project took 1/4 of the time expected.

Cornell University

BUILD a Digital Campus

Cornell University modernized its IT systems and applications, moving to the cloud 75% faster than would have been possible with on-premises middleware.

REINVENT the Customer Experience

British telecom giant Sky created “5 clicks to fix” intelligent service, boosting customer satisfaction 20% and saving \$8 million.
