ERP Modernization: Digital Operations Platform for Life Sciences

Accelerate Digital Transformation With Pre-built Enterprise Integration Frameworks

Pre-configured integration frameworks for Life Sciences companies leverage the Boomi AtomSphere Platform for connecting trading partners with an internal ecosystem of commonly used applications to accelerate enterprise integration deployments.
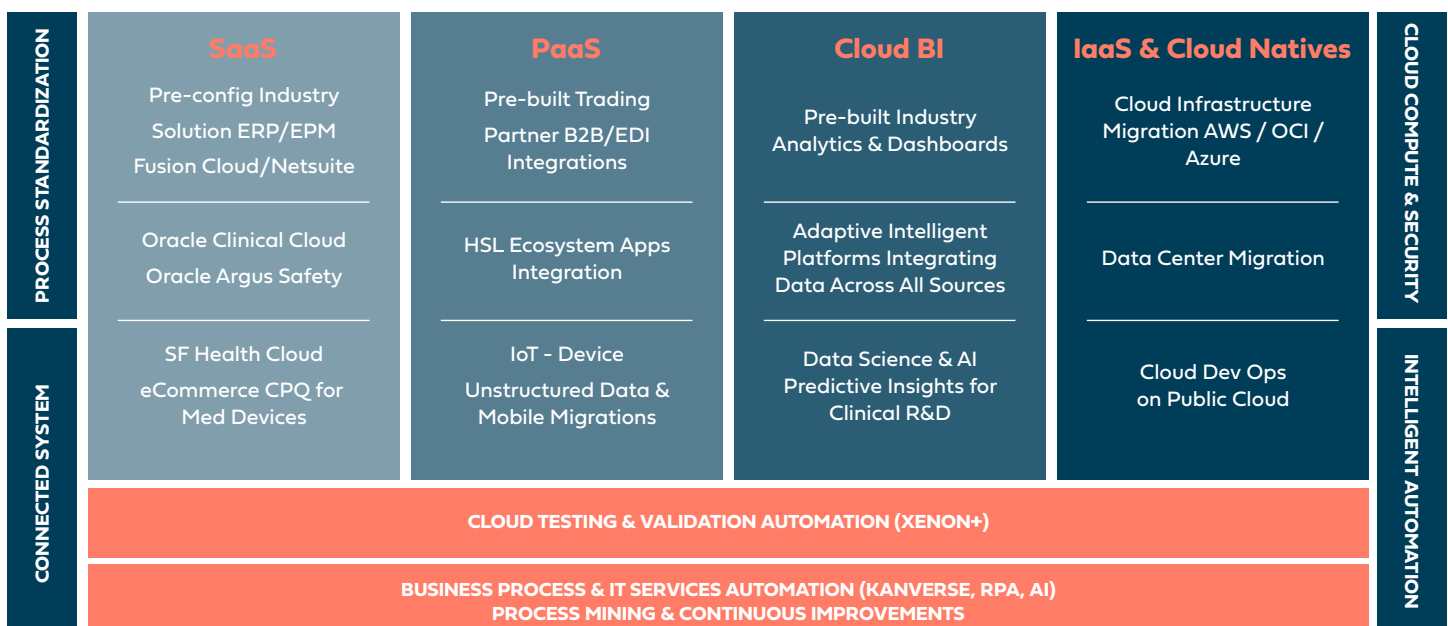

BUSINESS CHALLENGE

For Life Sciences companies going through a digital transformation and modernization journey, it has been a trending practice to move away from monolithic applications to implementing a diverse portfolio of best-of-breed cloud applications. This leaves companies with the challenge of eliminating data silos and efficiently integrating process and data internally across applications (A2A) and externally with business partners (B2B).

SOLUTION DESCRIPTION

The best-of-breed applications portfolio in Life Sciences companies can be complex and drives need for process and data integration between leading cloud ERP

systems like Oracle/NetSuite/SAP, Coupa Procurement, Salesforce/Veeva CRM, Trackwise Quality, Tracelink Track & Trace, Workday HCM, etc. and B2B integrations with contract manufacturers (CMO/CPO), 3PLs, customers, suppliers, banks, and more.

The Boomi AtomSphere Platform provides end-to-end capabilities including application integration, data quality governance, B2B/EDI network management, API management and workflow automation. Jade Global, a Boomi Elite Partner with extensive Life Sciences domain expertise and experience with leading cloud applications, has developed pre-packaged solutions for accelerating Boomi platform deployments with a framework for compliance validation.

PROCESS STANDARDIZATION / CONNECTED SYSTEM	SaaS	PaaS	Cloud BI	IaaS & Cloud Natives	CLOUD COMPUTE & SECURITY / INTELLIGENT AUTOMATION
	Pre-config Industry Solution ERP/EPM Fusion Cloud/Netsuite	Pre-built Trading Partner B2B/EDI Integrations	Pre-built Industry Analytics & Dashboards	Cloud Infrastructure Migration AWS / OCI / Azure	
	Oracle Clinical Cloud Oracle Argus Safety	HSL Ecosystem Apps Integration	Adaptive Intelligent Platforms Integrating Data Across All Sources	Data Center Migration	
	SF Health Cloud eCommerce CPQ for Med Devices	IoT - Device Unstructured Data & Mobile Migrations	Data Science & AI Predictive Insights for Clinical R&D	Cloud Dev Ops on Public Cloud	

CLOUD TESTING & VALIDATION AUTOMATION (XENON+)

BUSINESS PROCESS & IT SERVICES AUTOMATION (KANVERSE, RPA, AI)
PROCESS MINING & CONTINUOUS IMPROVEMENTS

THE JADE GLOBAL ADVANTAGE

With Jade Global solutions, you reap the benefits of:

- Seamless process and data integrations across the ecosystem
- Accelerated outcomes in achieving operational agility
- Enhanced supply chain visibility and reliability
- Effective collaborations across business partners
- Achieving and maintaining compliance with industry regulations

JADE GLOBAL + BOOMI

Jade Global has successfully helped more than 150 high tech businesses assist their customers in embracing challenges and driving digital change leadership. As a Boomi Certified Elite Partner, Jade Global specializes in enterprise-grade solutions for all integration needs. We work closely with Boomi to deliver complex, cost-effective integration solutions for cloud and on-premises applications to help high tech customers achieve rapid digital transformation. Plus, we solve complex data synchronization issues between applications using our best practices for Master Data Management.

Trading Partner B2B/EDI Integrations

Pre-built Integration Framework to onboard Supply Chain Partners

Accelerate Integration with Trading Partners CMO, CPO, CRO, 3PL

Standards-based EDI Integration & Communication Protocols

Enterprise Systems Integration

Ecosystem Connect for End-to-end Process Integration & MDM

Integration to Quality, CRM, Track & Trace, LIMS, ECM, Contract Systems

Device & Peripheral Integration

Data Integration for Reporting & Analytics

Application Data Ingestion Frameworks into Data Lake;Data Enrichment Process

Pre-Built Analytics & Dashboard
